ABOUT **US**

Accurate Dairy Equipment (ADE), a sole proprietorship based in Neemrana, Rajasthan, has been a trusted name in the dairy industry since 2016. Equipped with advanced facilities and a skilled workforce, ADE specializes in manufacturing and trading a wide range of high-performance products, including Milk Cooling Machines, Steam Boilers, Sweets Making Machines, Milk Pasteurizer Units, and more. Committed to empowering dairy businesses, ADE continuously strives for innovation and excellence. Their exceptional after-sales service sets them apart in the industry. To stay at the forefront, ADE actively participates in and organizes seminars to keep their team updated with the latest techniques and advancements, ensuring they deliver the best solutions for their clients.

Vision

To be recognized as the most trusted and innovative provider of dairy equipment solutions worldwide, empowering dairy businesses with advanced technology, superior quality, and exceptional service. We aim to revolutionize the dairy industry by delivering efficient, sustainable, and customized solutions that cater to the unique needs of every client. Through continuous innovation and customer-centric practices, we envision fostering growth and enhancing productivity for dairy enterprises across the globe.

Mission

At **Accurate Dairy Equipment (ADE)**, our mission is to provide high-performance and reliable dairy equipment solutions that enhance efficiency, improve product quality, and streamline operations for our clients.

Innovation & Technology: We are dedicated to developing cutting-edge solutions such as Milk Cooling Machines, Steam Boilers, Sweets Making Machines, and Milk Pasteurizer Units that align with evolving industry demands.

Customer Satisfaction: By prioritizing exceptional after-sales service, we ensure our clients experience smooth operations with minimal downtime.

Knowledge & Growth: We actively participate in and organize seminars to keep our workforce updated with the latest industry advancements, enabling us to deliver state-of-the-art solutions.

Customization & Flexibility: Understanding that every business is unique, we provide both standard and tailored solutions to meet diverse operational requirements.

Sustainability & Responsibility: We are committed to promoting environmentally conscious practices, ensuring our solutions are energy-efficient and eco-friendly.

FROM THE DIRECTOR'S DESK

Greetings,

Since 2016, **Accurate Dairy Equipment (ADE)** has proudly established itself as a trusted name in the dairy industry. Based in Neemrana, Rajasthan, our sole proprietorship is equipped with advanced facilities and a skilled workforce dedicated to delivering high-performance solutions.

Our product range includes Milk Cooling Machines, Steam Boilers, Sweets Making Machines, Milk Pasteurizer Units, and many more, designed to enhance the efficiency and growth of your dairy business.

At ADE, we are committed to innovation and excellence, ensuring our clients receive the best solutions available. To stay ahead in the industry, we actively participate in and organize seminars to keep our team updated with the latest techniques and advancements.

Our dedication extends beyond just providing equipment—we aim to become a valued partner in your business journey. Our exceptional after-sales service is what truly sets us apart, ensuring continuous support for our clients.

We are grateful for your trust and partnership, and we look forward to helping your business achieve even greater success.

Best regards,

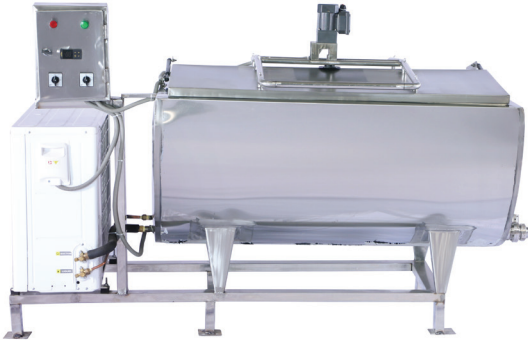

Sachin

Director, Accurate Dairy Equipment (ADE)

Bulk Milk Cooler – Bulk Milk Chiller

Note: All Variants are Available in Single Phase & Three Phase Compressor.

AVAILABLE SIZE

BMC - 500 LITRE
BMC - 1000 LITRE
BMC - 2000 LITRE
BMC - 3000 LITRE
BMC - 5000 LITRE

Reduces 1 degree C in
7-8 minutes

Our Bulk Milk Chiller (BMC) range is designed to ensure efficient milk cooling and preservation for dairy farms, collection centers, and milk cooperatives. Available in various capacities - 500 L, 1000 L, 2000 L, 3000 L, and 5000 L - these machines provide optimal cooling solutions to maintain milk quality and freshness.

KEY FEATURES

- **Fast Cooling Technology:** Ensures milk reaches the desired temperature quickly to prevent bacterial growth.
- **Energy Efficient:** Designed for minimal power consumption, reducing operational costs.
- **Robust Build:** Made from high-quality stainless steel for durability and hygiene.
- **User-Friendly Operation:** Easy-to-use control panel for temperature regulation.
- **Automatic Agitation System:** Ensures uniform cooling and prevents cream separation.
- **Capacity Options:** Suitable for small-scale to large-scale milk storage needs.

Ensure your milk stays pure, fresh, and ready for processing with our reliable Bulk Milk Chiller solutions.

Gas Operated Automatic Mawa/Khoya Machine

The device is fully automatic to ensure its easy and trouble-free use. Considering the diverse of requirements of customers, the device is made in the various sizes for required production. It is hygienic and is made in the custom capacities varying from 100-300 liters.

KEY FEATURES

- > **Fast & Efficient:** Prepares mawa/khoya quickly without compromising on taste and texture.
- > **User-Friendly Design:** Easy-to-use controls for hassle-free operation.
- > **Stainless Steel Build:** Ensures hygiene, durability, and easy cleaning.
- > **Energy Efficient:** Consumes less power, reducing operational costs.
- > **Capacity Options:** Available in various sizes to suit different production needs.

Steam Boiler (Vertical)

AVAILABLE SIZE

ADE - 1

Note: Boiler is also available for Petha & Gur

ADE - 2

Plants, Washing Cloths, Rice Plants, Hotel

ADE - 3

Restaurant & Tyre Resolling.

ADE - 4

ADE - 6

ADE - 8

ADE - 11

ADE - 16

There is no need of filling water, takes water from the kettle automatically, 25-30 kg wood consumption in 1 hour

We the Accurate Dairy Equipment are leading steam solution provider all over india.

KEY FEATURES

- > **Versatile Applications:** Ideal for diverse industries including:
 - **Dairy Plants** for efficient milk and product processing.
 - **Petha & Gur Production** ensuring perfect consistency and quality.
 - **Textile Industry** for washing and steam pressing.
 - **Rice Plants** for effective steaming processes.
 - **Hotels & Restaurants** for fast and efficient cooking.
 - **Tyre Resoling Units** for improved productivity.
- > **Multiple Capacity Options:** Available in ADE - 1, ADE - 2, ADE - 3, ADE - 4, ADE - 6, ADE - 8, ADE - 11, and ADE - 16 to meet varying production needs.
- > **Energy Efficient & Durable:** Built with high-quality materials to ensure optimal performance and long-lasting durability.

Peti Pack Boiler (DJ Box Type)

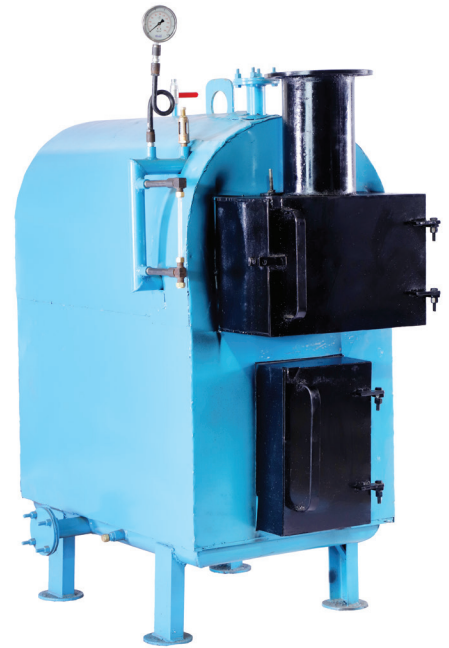

FULLY AUTOMATIC

Best Ever Wooden Based Technology
for Steam Solutions.

AVAILABLE SIZE

ADE - 1
ADE - 2
ADE - 3
ADE -78787878 4
ADE - 6
ADE - 8
ADE - 11
ADE - 16

Introducing our Fully Automatic
Peti Pack Boiler (DJ Box Type) - the ultimate
steam solution powered by innovative
Wooden-Based Technology for unmatched
efficiency and performance.

KEY FEATURES

- **Fully Automatic Operation:** Ensures hassle-free performance with minimal manual intervention.
- **Wooden-Based Technology:** An eco-friendly and cost-effective solution for generating steam.
- **Robust Design:** Built for durability and long-term use in demanding environments.
- **Versatile Applications:** Suitable for dairy plants, food processing units, textile industries, restaurants, and more.
- **Consistent Steam Output:** Ensures uniform heat distribution for optimal results.

Rasgulla Kettle

Kettle is available in three model Non Insulated, Semi Insulated & Fully Insulated.

AVAILABLE SIZE

150 LITER
200 LITER
250 LITER
300 LITER

Our Rasgulla Kettle is specially designed to simplify and enhance the process of preparing delicious and perfectly textured rasgullas. Built with precision and efficiency in mind, this kettle is ideal for sweet shops, dairy units, and large-scale dessert production.

KEY FEATURES

- > **Available in Three Models:**
 - **Non-Insulated** - Ideal for quick preparation with minimal heat retention.
 - **Semi-Insulated** - Balances energy efficiency with effective heat control.
 - **Fully Insulated** - Ensures maximum heat retention, saving energy and maintaining temperature for longer durations.
- > **Durable Construction:** Made from high-quality materials for long-lasting performance.
- > **Efficient Heating:** Ensures uniform heat distribution for consistent results.
- > **User-Friendly Design:** Easy to operate, clean, and maintain.

Steam Operated Automatic Mawa Machine

AVAILABLE SIZE

Steam operator size - 120L | 150 L | 250L

Motor Capacity - 0.5 HP | 1 HP | 2 HP

Mawa Machine - 1 kg mawa with 1 L milk

Dust Seprator

Used to remove dirty particals from air.

Our Til Til Kettle is designed to provide efficient heating solutions for various food preparation processes, ensuring precision and consistent results. Ideal for commercial kitchens, sweet shops, and food processing units, this kettle is built for durability and performance.

KEY FEATURES

- > **High Efficiency:** Captures dust particles with precision.
- > **Improved Air Quality:** Enhances workplace hygiene and safety.
- > **Durable Build:** Designed for consistent performance in demanding conditions.

STEAM BOILER

Note: Water recycling work without water pump and fuel efficiency.

L-TYPE

AVAILABLE IN
ALL SIZES

100-2000 kg Steam

Our L Type Steam Boiler is a powerful and efficient steam solution designed to meet the needs of various industries. Engineered for performance, this boiler combines advanced technology with energy-saving features for optimal results.

KEY FEATURES

- > **Wide Range of Sizes:** Available from 100 kg to 2000 kg steam capacity to suit diverse requirements.
- > **Water Recycling System:** Efficiently recycles water without the need for a water pump, ensuring continuous operation with minimal intervention.
- > **Fuel Efficiency:** Designed to minimize fuel consumption, reducing operational costs while maintaining consistent steam output.
- > **Robust Construction:** Built with high-quality materials for durability and long-lasting performance.
- > **User-Friendly Operation:** Simple controls for easy monitoring and management.

MILK STORAGE TANK

Note: All customized and standard size available.

STORAGE TAN78784/KS

AVAILABLE IN:
Horizontal & Vertical Type

Our Milk Storage Tank is designed to ensure safe, hygienic, and efficient storage of milk in both small and large-scale dairy operations. Built with precision, these tanks maintain milk quality by preserving its freshness at optimal temperatures.

KEY FEATURES

- **Available in Two Types:**
 - **Horizontal Type** – Ideal for space-saving storage with easy access.
 - **Vertical Type** – Perfect for maximizing floor space in compact areas.
- **Custom & Standard Sizes:** Tailored solutions available to meet your specific capacity and space requirements.
- **Durable Construction:** Made from high-grade stainless steel for enhanced hygiene, corrosion resistance, and easy cleaning.
- **Temperature Control:** Designed to maintain consistent cooling for prolonged milk freshness.
- **User-Friendly Design:** Easy to fill, clean, and maintain for smooth daily operations.

COLD SOLUTIONS

AVAILABLE SIZE:

Cold Room Are Also Available In Standard And Customized Size.

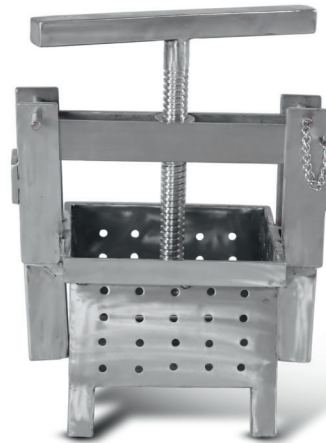

Our Cold Solutions are designed to provide efficient and reliable cooling for various industries, ensuring optimal storage conditions for perishable products.

KEY FEATURES

- **Cold Rooms Available:** Offered in both Standard and Customized Sizes to meet your specific storage needs.
- **Optimal Temperature Control:** Ensures consistent cooling to maintain product freshness and quality.
- **Energy Efficient Design:** Built to minimize energy consumption while delivering maximum cooling performance. **Durable**
- **Construction:** Crafted from high-quality materials for enhanced durability and long-term use.
- **Versatile Applications:** Ideal for dairy, food processing, pharmaceuticals, and more.

PANEER PRESS MACHINE

We offer a highly efficient and durable Manual Paneer/Soya Pressing Machine, specially designed for processing paneer and soya products. Engineered for precision, this machine ensures the effective extraction of high-quality paneer from milk through a streamlined, manual pressing process. Ideal for dairy units and food processing industries, it combines ease of use with consistent performance.

KEY FEATURES

- **Manual Operation:** Easy-to-use hand press mechanism for controlled pressure application.
- **Durable Build:** Made from high-quality stainless steel for corrosion resistance and long-lasting performance.
- **Hygienic Design:** Smooth finish and food-grade materials ensure sanitary processing.
- **Compact & Sturdy Structure:** Space-saving design suitable for commercial and small-scale operations.
- **Uniform Pressure Distribution:** Ensures even pressing for consistent texture and shape.
- **Easy to Clean & Maintain:** Simple design with minimal moving parts for hassle-free maintenance.
- **Versatile Use:** Suitable for both paneer and soya product pressing.
- **Customizable Sizes:** Available in various sizes and capacities to match different production needs.
- **Non-electric Operation:** Ideal for areas with limited power access or for energy-saving setups.

INSULATED RASGULLA KETTLE

Our Insulated Rasgulla Kettle is specially designed to maintain the ideal temperature and hygiene during the preparation and storage of rasgullas. Crafted with high-grade stainless steel and superior insulation, it ensures consistent heat retention, minimizing heat loss and energy consumption. Ideal for sweet shops and commercial kitchens, this kettle helps preserve the softness, texture, and taste of rasgullas for longer durations. Durable, easy to clean, and efficient - it's the perfect solution for quality rasgulla production.

KEY FEATURES

- **Double-Wall Insulation:** Maintains optimal temperature for extended periods, preserving rasgulla softness and flavor.
- **Stainless Steel Construction:** Made with food-grade stainless steel for durability, hygiene, and corrosion resistance.
- **Energy Efficient:** Reduces the need for constant reheating, saving energy and time.
- **Lid with Locking System:** Helps retain heat and prevents contamination during storage.
- **Spill-Proof Design:** Minimizes chances of overflow or spillage during handling.
- **Easy to Handle:** Comes with strong, heat-resistant handles for safe and convenient usage.
- **Available in Multiple Sizes:** Suitable for small to large-scale sweet production needs.
- **Ideal for Commercial Use:** Perfect for sweet shops, caterers, and food processing units.

RASGULLA BALL - MAKING MACHINE

The Rasgulla Ball Making Machine by Accurate Dairy Equipment is designed to deliver precision in every sphere – literally! Built for sweet manufacturers who demand speed, hygiene, and uniformity, this machine automates the tedious task of shaping rasgulla balls from chhena or khoa mix with consistent size and weight.

KEY FEATURES

- **Uniform Size & Shape:** Ensures every rasgulla is soft, round, and identical - perfect for packaging and presentation.
- High Production Capacity:** Capable of producing up to [insert capacity] balls per hour - ideal for medium to large-scale sweet production.
- **Adjustable Settings:** Easily control ball size and weight to match your recipe requirements.
- **Hygienic & Food-Grade Construction:** Made with stainless steel for easy cleaning and compliance with food safety standards.
- User-Friendly Operation:** Simple controls with minimal training required - perfect for fast-paced environments.
- **Low Maintenance:** Robust build designed for long operational life and reduced downtime.
-

QUALITY ASSURANCE & SERVICE SUPPORT

At **Accurate Dairy Equipment**, we believe in delivering not just reliable products but also dependable service. Our commitment to quality extends beyond manufacturing — right into after-sales support.

24x7 Service Support

We provide round-the-clock service assistance across India. No matter where you are, our dedicated team is just a call away.

Pan-India Coverage in 48 Hours

Our trained service engineers are equipped to reach your location within 48 hours via air, road, or train, ensuring minimal downtime and uninterrupted dairy operations.

One-Year Warranty

All our equipment comes with a comprehensive one-year warranty starting from the date of installation and documentation, covering manufacturing defects and operational issues.

Dedicated Transport System

We have our own transport system, making our services faster, smoother, and hassle-free for clients across the country.

Reliable Logistics Support

Whether by air, road, or rail, we ensure prompt delivery and service response, maintaining the quality and efficiency standards we stand for.

With Accurate Dairy Equipment, you're not just investing in machines — you're securing a promise of quality, care, and countrywide support.
